BAUE EINEN CHOPPER!

LEGO TECHNIC

Ein Chopper ist ein Motorrad, das etwas verändert wurde. Es hat eine lange und vergleichsweise flache Vorderradgabel, einen hohen Lenker und vorverlegte Fußrastanlagen. Oft sind Copper sehr einfach und sind dadurch leicht. Dieses Modell wurde aber besonders futuristisch ausgestattet. Es ist ein modernes Super-Motorrad!

Baue dein Super Car in ein Super Motorrad um! Nutze die Teile aus dem LEGO Technic Set 8070!
